At the last meeting it was agreed that meetings would be kept short, up to an hour, and only urgent matters would be discussed.

One issue that needed to be addressed was the setting of the precept and this needed to be done face to face in the office. The Chairman of the Finance Committee was considering how to enable this given the current Rule of 6 people meeting at a time, as laid out by the Government.

Cllr Ford reported that NALC had produced a simplified overview of the consultation document which he would circulate to everyone tomorrow.

Cllrs Ford and Mrs Thompson reported that they had attended a virtual presentation on this consultation.

The consultation document required a response by 25th October 2020. It was noted that two further consultations would follow this one, although no dates had been set for these to date.

Members were concerned and disappointed that the proposals would remove more local democracy. It was disappointing the measures that were included that would allow Neighbourhood Development Plans to be overruled. The proposals would allow local councils to have their say although it would not have much of an impact on the planning system.

There was also concern that the government were consulting on these proposals during the Covid-19 Pandemic when councils couldn't hold face-to-face meetings due to the restrictions imposed by the government.

It was noted that if the proposals went ahead the housing target figure for houses to be built in Cornwall would rise from 52,000 houses to 80,000.

It was suggested that Cornwall Council would have to be more measured in their response to the Government despite the feeling that they should strenuously resist the proposals.

It was proposed by Cllr Crabtree, seconded by Cllr Pavey and

FC20/09/12.2 RESOLVED that a Task and Finish Group would be set up to

respond to the Planning for the Future – Government Consultation Paper on the Changes to the Planning System. The Task and Finish Group would consist of Cllrs Crabtree, Ford and Mrs Thompson. On a vote being taken the matter was approved unanimously.

Members discussed the inspection sheet submitted by the Council’s contractor. It was felt that Health and Safety matters needed to be separated from general maintenance. It was also felt that the person completing the inspections should not be requested to quote for the remedial work highlighted in their reports.

It was proposed by Cllr Mrs Ferrett, seconded by Cllr Williams and

FC20/09/13.2 RESOLVED that the monthly Health and Safety Inspections would be brought in house and completed by the Clerk with immediate effect.

TO CONSIDER MANAGEMENT, MAINTENANCE AND FUTURE DEVELOPMENTS AT ILLOGAN PARK AND OTHER PARISH FACILITIES, AGREE ANY APPROPRIATE ACTIONS AND ANY ASSOCIATED EXPENDITURE

The Clerk had circulated a copy of an email from Faithful and Gould containing the updated design brief as per the Full Council meeting held in August 2020. The design brief included some queries which needed to be clarified by the Council.

Member considered the design brief and:

It was proposed by Cllr Ford, seconded by Cllr Crabtree and

FC20/09/18.2

RESOLVED

that the Clerk would sign and return the Design Brief to Faithful and Gould with the following responses to the questions posed by Faithful & Gould:

- 1. If the accessible WC is on the RADAR key scheme, then one of the WC's needs to be of suitable size to house the baby changing facility. Is this agreeable?*
– **Yes**
- 2. Are IPC determined to have a traditionally constructed building or should we consider a modular option that could be relocated in the future? (note there are some complications 'setting' the position of the WC's now if the intention is to include it in the later building) – **Modular is the preferred option.***
- 3. Should we include to upgrade the water supply pipe at this stage? – **Yes***
- 4. Should we include to upgrade the electric supply to 3phase at this stage? – **Yes***
- 5. Should we include for the drainage remedial works (following survey) and drainage installation works at this stage? – **Yes***
- 6. We presume that the top surface to this should be tarmacadam, as elsewhere? **Yes***
- 7. Should we include for a lighting scheme for the car park area? **No***
- 8. Should we include for a 'grasscrete' vehicle access route across to the Changing Facility area for emergency vehicles and future construction traffic? **Yes***

On a vote being taken on the matter there were 9 votes FOR and 0 votes AGAINST

Cllr Ekinsmyth reported that:

The purpose of this report was to give an overview of the work in the Parish and at Cornwall Council in this very difficult time.

- In the Illogan Division** - since the beginning of lockdown he had continued to respond to requests for information, help with contact information and resolving personal issues reported to him.

Planning Applications had continued, and issues resolved. He would be taking one to West Planning at its next meeting PA20/04241- Land adjacent to Chyryn, Harris Mill. This would be decided on 21st September.

Climate Emergency - in process of gathering names for the Action Group as resolved in our meeting in February. Joint activity with other councils in Camborne Pool Illogan Redruth Community Network Area taking place.

Highways and Road Safety - Several residents had reported difficulties with inconsiderate parking and excess speeding in recent weeks. All logged with Highways Manager and he would be meeting him shortly to reinforce.

Green Spaces – he was receiving comments and suggestions regarding these.
- Cornwall Council** - over the last several months all available resources had been focussed on dealing with the Covid 19 emergency situation. All staff were working from home and all meetings were virtual. So far Cornwall had been more fortunate than other parts of the country in that the incidence rate had been low, but since the relaxation of lockdown and welcome return of visitors for our businesses the risks were increasing, and a resurgence of the virus was still likely. Nevertheless, Cornwall Council had been recognised for doing an excellent job in getting support to those who needed it.

Budget - this had been hit hard by the support measures and coming on top of previous years austerity cuts the current picture was not good. Budget proposals were about to be published for Cabinet to consider before submission to Full Council at the end of the month. Headlines appear to be that despite promises the Government has only come forward so far with around a half of the expenditure made by the council and this had created a substantial budgetary gap that would need to be filled to maintain the balanced budget they were required to do. Measures suggested would include voluntary redundancies with the expectation of losing 200 Full Time Equivalent posts. The aim would be to do this without badly affecting frontline services. Reserves were being depleted to assist this process but £35m was the bottom line to be retained.

All these calculations were made against a background of great many unknowns. Great work had been done by Charlotte Caldwell and her team at the Camborne Pool Illogan Redruth Network area coordinating information and assisting and informing Members and Parish and Town Councils regularly. It was to be regretted that more Parish Councillors

did not attend meetings. Cornwall Councillors had a weekly virtual meeting throughout the emergency and these were ongoing.

All meetings of Cornwall Council were live streamed so that members of the public could view the council in action and get involved if they so wished. This had produced more interest and larger attendances than in normal face-to-face meetings. There was no plan to resume normal meetings until November at the earliest.
